Winning paragraph of Name the Yearbook contest

"The reason I picked the name The Trailriders, is because I think it would be a good name for the yearbook. It shows the people the trail the Cowboys and Cowgirls have followed this school year along with the fun activities we enjoy thru twelve hard, fun years of school."

Lesla Jeffcoat

As we go down the trails of school, it's a long, hard road. Even after our highschool years are over, we'll ride down the trails of life with many different turns to take and many different decisions to make. Each road determines which way our lives will go. This is the beginning, here in school--We are the TRAILRIDERS.

a KHS TRAILRIDER

Empty, yet filled with the memories of students who have ventured on to other paths of life. Memories which can never be relived, yet will never be forgotten. They are a part of us and a part of our school. The staff has tried to make time stand still; forever the Trailrider can bring the past closer to you.

The 1977 Staff

PRINCIPAL'S MESSAGE

Dear Seniors,

Congratulations on 12 long years of hard work. Striving for the goals that just a few years ago seemed so far away.

My parting wish for you is to accomplish your goals and make the most of the years to come. This is going to take a direct effort on your part.

Our time is one of great sadness and little enthusiasm, and very few people are striving to do their very best. Most people are quite willing just to "get by", but I believe that the most enjoyable life is one that is planned. Strive to do your best in every task, every day.

I am not worried about your making a living; I am deeply concerned about your enjoying your life, particularly your leisure time. Life can be rich and varied and deep, if you make it so; or it can be flat and dull. Too much of our time is spent in getting the quantity of things. In reality, the thing that enriches our life is the quality that we teach ourselves to demand. I hope you will pursue the quality.

All good wishes,

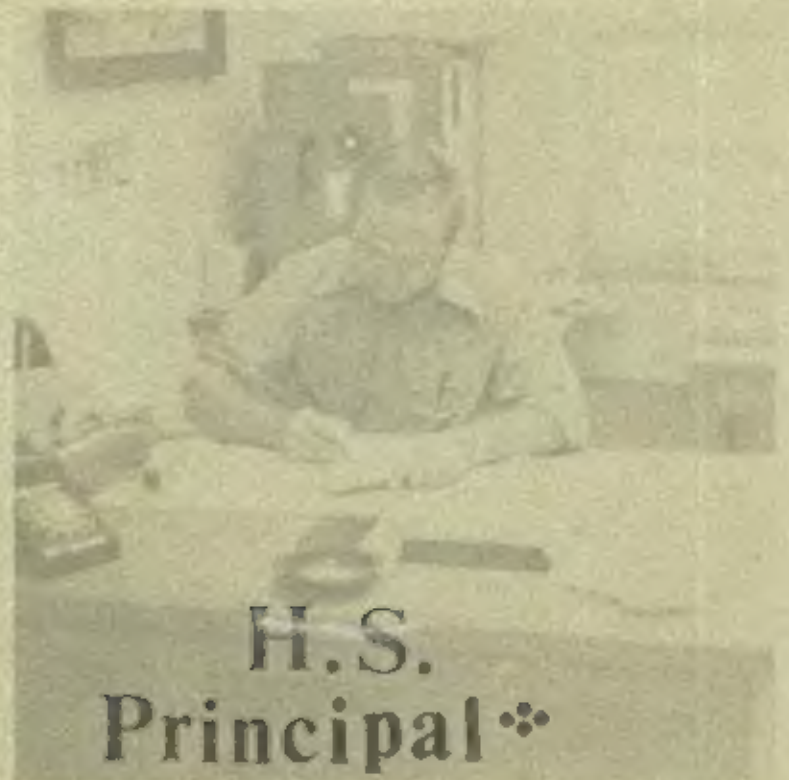

Mr. Clark Rhyne

ADMINISTRATION

I'm sure all of you are familiar with the song "America the Beautiful." The song describes America as a land of beautiful spacious skies with purple mountains standing above fruited plains and amber of grain. Yes, America is a beautiful land of opportunity, one nation under God, founded on the principles of freedom, liberty, and justice for all its citizens.

America has been fortunate to have people who were willing to make the effort to give us a country that is second to none.

So here we are, a citizen of a two-hundred-year-old country that almost all the world admits is #1. What kinds of responsibilities do we have as inheritors of this country? Can we live on accomplishments of the past? What kind of people made the United States the country it is today?

I believe people with a "I can" attitude make the difference.

first step.

will be able to succeed at almost any task you undertake.

I believe that almost without exception your attitude will stop progress toward success before you reach the limits of your ability.

With proper attitudes and motivation, decide what good and proper think you want and don't stop until you have achieved the level of success you desire.

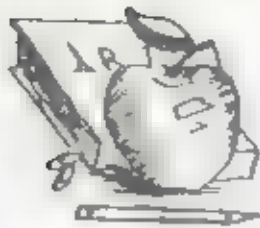

Do not be afraid to try: there is nothing wrong with trying and failing, but I would question the thinking of a person that will not put forth his best effort to achieve a worthy goal.

One person can make a difference in our school, community, and nation. I would like for our story at Kiowa to have a story book setting, with each of you playing an important role in the activities of our school.

As you chart your course in life, choose worthwhile goals, plan a little, dream a little, and then be willing to put in the time and exert the energy to achieve success in your endeavors. By choosing this type of positive action, you will set the stage for a success story that has a happy ending; and Kiowa School, our community, and our nation will be a better place in which to live, learn, and enjoy the pursuit of happiness.
